- **Click on Register & Create**. You should then see **“Current Applications”** and see your dog's information, case number and status (At Clinic)

That's all you need to do! Dr Belknap's office will do the rest online.

Advanced OFA All-Breed Cardiology Clinic
Saturday March 30, 2024 9 am-4 pm

Certification for absence of congenital heart disease may be performed on dogs one year of age or older.

Dr. Lauren Markovic, DVM, DACVIM (Cardiology) will be performing the tests from 9:00am – 4:00pm.

Cost: \$300.00 for echocardiogram (auscultation is included). Auscultation only without echo is \$55.00. Note: This is a “Breeding OFA Cardiac Clinic”. The OFA forms will be completed and provided for dogs. This is not a clinic for animals with known heart disease.

We will schedule echocardiograms throughout the day. We encourage you to pre-register as these clinics are very popular. This will be a cash only clinic.

We will attempt to accommodate all those interested in cardiac screening and will take walk-ins for both echo and auscultation, the day of the clinic, as time permits.

OFA cardiac forms will be available or you can download/complete the OFA Cardiac form and bring the completed form to the clinic.

Please bring a copy of your animal’s AKC registration as well as your microchip/tattoo information.

Pre-registration must be received by March 13, 2024
